Died in Custody.

The rumor which was going around last Thursday to the effect that one of the inmates of the county jail had committed snicide, was found upon investigation to be untrue.

Peter Witham, an old man of some 70 years, living near Deshler, had been adjudged insane several weeks ago and sent to Toledo. The authorities at the asylum refused to receive him and he was sent back to Napoleon and lodged in the jail until further arrangements could be made. The old man was very feeble and Thursday morning was found dead in his chair. Old age and grief seemed to be the only causes. Relatives near Deshler were notified and the body was sent to that place Saturday.

### Returned.

The exhibit made by the Napoleon Union Schools has returned from the World's Fair. Taking everything into consideration the exhibit is a very fine one. Every departexamination papers. The smaller pupils the skill that some of the little ones show in figure cutting and drawing. Offhand drawing is a comparatively new course which has been tried in all the rooms, and it is surprising to see the advancement which some of the pupils have made in the last two or three years. Everyone who visits the schools should drop in Prof. Beck's office and see the exhibit.

Electric Railway Talk. J. W. Benschoter, who has just returned from Lakeside and intermediate points, says the well-to-do farmers and capitalists over there are just now very enthusiastic over the much talked of electric road, projected to run from that point to Bowling Green and other interior towns. Starting from Marblehead, thence to Lakeside, Port Clinton, Fremont, Bowling Green, Napoleon and other county seats, people at that end of the line figure that such a line would be of inestimrble value. It would permit the immense fruit growing interests of the islands and lake shore, as well as the quarry interests of Marblehead, a direct line and quick transit to the interior points. Fruit loaded at the lake ports at 10 a. m., would reach here at noon, and would sell 25 per cent. less than at present.

The citizens in that region will aid the project with cash, and reason that it will prove a great investment, arguing upon the experience of the 16 mile electric between Sandusky and Norwalk, which has been in operation four months and is making 10 per cent, interest to its investors,-Bowling

She had just attained the full fruition of a perfect romanhood, having been spared to see her daughters and five sons all attain honorable stations in life.

With a heart whore every pulsation was vibrant with joy for those who rejoiced, and sorrowful for those who sorrowed, her whole life was indeed a beautiful mission, whole life was indeed a beautiful mission, where there was sickness or sorrow "she came like a ministering angel." Often when the sorrows of life have seemed too great to be borne has she said to the writer: "You have the sure promise 'As thy days are, so shall thy strength be."
